

## CONTACT REPORT

SECRET

CADROIT/CARBOHYDRATE

13 Oct 54

Date, Time, and Place of Meeting: ~~xxxxxx~~ 8 Oct 54, 2000-2200, CARBOHYDRATE's Apt.Present: a. CARBOHYDRATE b. ☐ ☐

1. CARBOHYDRATE delivered a copy of procedures to be followed by Referenten in maintaining contact with MA's. The ground covered is, for the most part, not new, but is the type on which time spent is never wasted. Warnings were included against covered letters to MA which assume too stereotyped a form ("Dear Heinz; We have not seen you for some time, and wonder how you are. If you have a chance in the near future, etc. "). The necessity of getting more cover addresses was pointed up. The necessity of making sure that once a cover address is given up, for whatever reason, it is never used by MA's again. The necessity for constantly warning the MA's against writing letters containing text that is too open. The scheme of using ~~xxxxxx~~ prearranged code words was again described. This <sup>AND SIMILAR</sup> material had all been covered by ☐ ☐ again in a staff meeting on 8 October.

2. C reported no ~~xxxxxx~~ identifiable traces on Dr. Lukas.

3. C noted the often discussed problem of getting more space for CADROIT. The organization is now too crowded, with implications for the security of the work. The situation is particularly pressing in L. Street, where there is a definite shortage of safes. ☐ requested estimate on safe needs, to come in at next meeting.

4. C noted that the building opposite L. Street is under American control, and is now vacant. Would it be possible to secure this building? C would draw up a security ~~plan~~ assessment of the bldg. if there was a chance that it could be secured. This would be fruitless, however, if there is no chance that the building will be available. Can ☐ advise? ☐ agreed to look into the matter.

NEXT MEETING: 12 Oct 54, 1900, at C's Apt.
